CÓMO DISTINGUIR ENTRE BUENA CIENCIA, MALA CIENCIA Y PSEUDOCIENCIA

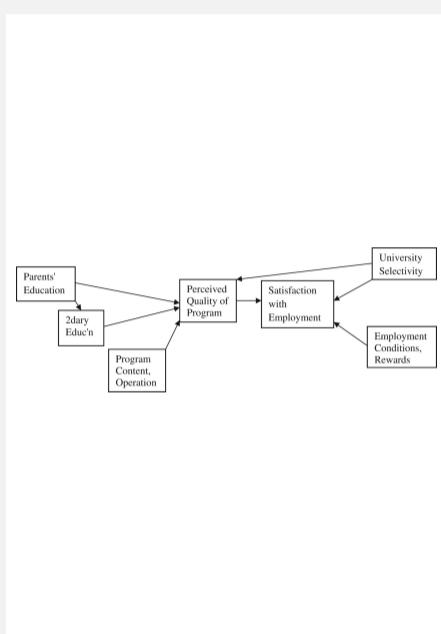

A pesar de la seriedad con que se visten, algunos artículos presentados como “ciencia” no lo son. Los autores de este artículo, publicado originalmente en The Conversation, ofrecen una práctica guía para distinguir buena ciencia de pseudociencia y mala ciencia. En tiempos en que las fake news se propagan ...

Gobierno de Chile

• CONCURSO FONDECYT POSTDOCTORADO 2020

DESCRIPCIÓN

El objetivo de este concurso es estimular la productividad y liderazgo científico futuro de jóvenes investigadores(as) con grado académico de Doctor, mediante la realización de proyectos de investigación con miras a su inserción laboral en el ámbito académico u otro, a través de su incorporación en grupos de investigación consolidados que contribuirán a su desarrollo científico y que, a su vez, se verán fortalecidos por su participación. Los proyectos tendrán una duración de 2 o 3 años y el(la) Investigador(a) Responsable deberá tener dedicación exclusiva al trabajo de investigación.

[MÁS INFORMACIÓN...](#)

FECHA CIERRE POSTULACIONES PARA INVESTIGADORES(AS)

24 Septiembre 2019 a las 16:00 h de Chile continental.

FECHA CIERRE DE PATROCINIO INSTITUCIONAL A TRAVÉS DEL SISTEMA EN LÍNEA

1 Octubre 2019 a las 16:00 h de Chile continental.

• OCTAVO CONCURSO DE INVESTIGACIÓN TECNOLÓGICA 2019 – IDEA.

DESCRIPCIÓN

El instrumento IDeA apoyará financieramente proyectos de I+D aplicada con un fuerte componente científico, que en breve tiempo obtengan resultados que puedan convertirse en nuevos productos, procesos o servicios, con una razonable probabilidad de generación de impactos productivos, económicos y sociales. En la línea de Investigación Tecnológica, se espera que los proyectos continúen con la investigación aplicada, a partir de un resultado validado a pequeña escala, y avancen hacia la obtención de resultados que se encuentren más próximos a su aplicación productiva o a su implementación en el plano social.

[MÁS INFORMACIÓN...](#)

FECHA CIERRE POSTULACIONES

17 Octubre 2019, hasta las 17:00 h de Chile continental.

• SÚMATE A INNOVAR

DESCRIPCIÓN

Programa de innovación que busca aumentar el desarrollo de soluciones innovadoras para resolver problemas y desafíos de productividad y/o competitividad de las empresas nacionales, a través de la vinculación con entidades colaboradoras. Se excluye Región de Antofagasta. Enfocado en empresas que nunca han innovado y que quieran atreverse a dar el salto. Esta línea apoya con hasta \$10 millones para que se vinculen con expertos y así sus problemáticas o desafíos.

[MÁS INFORMACIÓN...](#)

FECHA CIERRE POSTULACIONES

30 Agosto a las 14.00 h.

• INNOVA REGIÓN

DESCRIPCIÓN

Programa de innovación que busca apoyar el desarrollo de nuevos o mejorados productos, procesos y/o servicios, a partir de prototipos de baja resolución hasta su validación comercial, que aporten a la economía regional. Se excluyen las Regiones de Antofagasta y Los Ríos. Entrega apoyo a innovaciones que tengan al menos un impacto regional. Son hasta \$50 millones –en dos etapas- para que se pueda desarrollar desde un prototipo (versión temprana de la innovación que se transformará en un producto/servicio) hasta la validación comercial de ésta (primeros usuarios/ clientes).

FECHA CIERRE POSTULACIONES

30 Agosto a las 14.00 h.

• CREA Y VALIDA

DESCRIPCIÓN

Programa de innovación que busca apoyar el desarrollo de nuevos o mejorados productos, procesos y/o servicios de base tecnológica, a partir de prototipos de baja resolución, hasta su validación a escala industrial y/o comercial. Este programa financia desde la creación hasta la validación de innovaciones que tengan impacto nacional. Son hasta \$150 millones de apoyo por parte de Corfo (en dos etapas), dependiendo del grado de complejidad y desafíos tecnológicos a abordar.

FECHA CIERRE POSTULACIONES

30 Agosto a las 14.00 h.

• CENTRO PARA LA REVOLUCIÓN TECNOLÓGICA EN INDUSTRIAS CREATIVAS

DESCRIPCIÓN

Creación y fortalecimiento de capacidades tecnológicas para acelerar el desarrollo de productos y servicios creativos basados en I+D+i realizada en Chile mediante el establecimiento de validaciones, pilotajes, escalamiento y formación de capital humano, basadas en buenas prácticas internacionales y en un espacio neutral.

[MÁS INFORMACIÓN...](#)

Fundación para la
Innovación Agraria

• PROYECTOS DE GESTIÓN PARA LA INNOVACIÓN EN EMPRESAS COOPERATIVAS 2019

DESCRIPCIÓN

El objetivo de la convocatoria es apoyar la realización de proyectos de gestión para la innovación en empresas cooperativas del sector agrario, agroalimentario y/o forestal, que contribuyan a fortalecer su desarrollo y sostenibilidad (económica, social y ambiental). Esta convocatoria apoya a las empresas cooperativas que hayan finalizado la línea 1 (Elaboración de un programa de fortalecimiento: diagnóstico y formulación de plan de acción de corto y mediano plazo) de las Convocatorias Nacionales de Proyectos para la innovación en empresas cooperativas, realizadas desde el año 2014 hasta el 2018 o que estén por finalizar durante el presente año dicha línea y que cumplan las condiciones que más adelante se indica.

Mizutani
Foundation
for
Glycoscience

• THE 27TH RESEARCH GRANT (FOR 2020)

DESCRIPTION

Mizutani Foundation for Glycoscience is a non-profit organization established on October 1, 1992 with funds donated by the late Mr. Masakane Mizutani, former Emeritus Chairman of Seikagaku Corporation, Tokyo, Japan. The objective of the Foundation is to promote worldwide progress in glycoscience. The Foundation provides research grants to outstanding proposals for basic and applied studies on glycoconjugate in the fields of organic chemistry, biochemistry, biophysics, molecular biology, cellular biology and medical sciences. In principle, a grant will be approved for one year, from April 1, 2020 to March 31, 2021. The maximum amount of a grant is 7,000,000 yen (approximately US\$58,000 as of March, 2019).

CONCERN
FOUNDATION

FUNDING CANCER RESEARCH
WORLDWIDE

• CONCERN FOUNDATION / THE CONQUER CANCER NOW AWARD

DESCRIPTION

Concern Foundation is an independent, volunteer-driven organization conceived in 1968. Concern Foundation supports development of the next generation of cancer researchers and thus promotes progress in understanding cancer biology and improved approaches to cancer.

Concern Foundation accepts new grant proposals every two years. It begins with submission of a Letter of Intent (LOI). After administrative and scientific review, the most promising LOIs are invited to submit a full proposal.

Submitted proposal are peer-reviewed by experienced scientists and top applications are recommended to the Concern Foundation Executive Board for funding.

• FET OPEN – NOVEL IDEAS FOR RADICALLY NEW TECHNOLOGIES

DESCRIPTION

The Specific Challenge is to lay the foundations for radically new future technologies of any kind from visionary interdisciplinary collaborations that dissolve the traditional boundaries between sciences and disciplines, including the social sciences and humanities. This topic also encourages the driving role of new actors in research and innovation, including excellent young researchers, ambitious high-tech SMEs and first-time participants to FET under Horizon 2020 from across Europe. The Scope is: proposals are sought for cutting-edge high-risk / high-impact interdisciplinary research with all of the following essential characteristics ("FET gatekeepers"):

- Radical vision: the project must address a clear and radical vision, enabled by a new technology concept that challenges current paradigms. In particular, research to advance on the roadmap of a well-established technological paradigm, even if high-risk, will not be funded.

- Breakthrough technological target: the project must target a novel and ambitious science-to-technology breakthrough as a first proof of concept for its vision. In particular, blue-sky exploratory research without a clear technological objective will not be funded.

- Ambitious interdisciplinary research: for achieving the technological breakthrough and that opens up new areas of investigation. In particular, projects with only low-risk incremental research, even if interdisciplinary, will not be funded.

• RESEARCH GRANT ON CANCER PREVENTION AND SURVIVAL

DESCRIPTION

The grant programme groups research into two themes – cancer prevention and cancer survivors. Each of these areas may be addressed either from the perspective of identifying the mechanisms that underpin the effect of diet, nutrition and physical activity on cancer, or by addressing the host factors that influence individual susceptibility to cancer development or progression, and so contribute to explaining variability between people in outcomes. For cancer survivors, we also encourage broader research into evidence for impact of diet, nutrition (including body composition), physical activity and outcomes after cancer diagnosis, as robust evidence on this is still lacking.

Alzheimer's
Drug Discovery
Foundation

• NEUROIMAGING AND CSF BIOMARKER DEVELOPMENT PROGRAM

DESCRIPTION

Given the pathological heterogeneity of Alzheimer's disease and related dementias, new biomarkers are needed to more accurately characterize specific underlying pathophysiology. The average award is \$150,000-\$600,000 based on stage and scope of research. Larger amounts will be considered for PET ligand development for regulatory or clinical work. For studies requiring additional support, co-funding from other funding agencies or investors is encouraged.

- 16 October 2020 (for travel after 30 November 2020).

• FULBRIGHT CHILE - UNIVERSITY OF CALIFORNIA / FULBRIGHT CHAIR PROGRAM AT THE UNIVERSITY OF CALIFORNIA, DAVIS

DESCRIPTION

The Fulbright UC-Davis Chair recognizes faculty members and researchers who have an established record of teaching and exhibit the potential to make significant contributions to the body of research on their themes of expertise, which are critical to contemporary societies around the globe. The University of California, Davis, looks to enable global and societal impacts through innovation, creativity, and discoveries. In supporting these missions, the Fulbright Commission and the University of California, Davis are opening the following call for applications.

The Program is intended to strengthen collaborations in both research and teaching between Chilean institutions and UC Davis. Candidates for the Fulbright Visiting Scholar Program shall submit a detailed proposal for contributing to teaching and research, in any discipline, to be accomplished during either the fall 2020 term, winter 2021 term, or the spring 2021 term.

• THE WILEY FOUNDATION / WILEY PRIZE IN BIOMEDICAL SCIENCES 2019

DESCRIPTION

The Wiley Prize in Biomedical Sciences is intended to recognize breakthrough research in pure or applied life science research that is distinguished by its excellence, originality, and impact on our understanding of biological systems and processes. The award may recognize a specific contribution or series of contributions that demonstrate the nominee's significant leadership in the development of research concepts or their clinical application. Particular emphasis will be placed on research which champions novel approaches and challenges accepted thinking in the biomedical sciences.

• NATIONAL ACADEMY OF SCIENCE / THE NAS PRIZE IN FOOD AND AGRICULTURE SCIENCES

DESCRIPTION

The NAS Prize in Food and Agriculture Sciences recognizes research by a mid-career scientist (defined as up to 20 years since completion of PhD) at a U.S. institution who has made an extraordinary contribution to agriculture or to the understanding of the biology of a species fundamentally important to agriculture or food production. For the purpose of the prize, areas of science with applications to agriculture include plant and animal sciences, microbiology, nutrition and food science, soil science, entomology, veterinary medicine, and agricultural economics. The recipient will be awarded a medal and a \$100,000 prize. The prize is endowed through generous gifts from the Foundation for Food and Agriculture Research (FFAR) and the Bill & Melinda Gates Foundation.
